In tespouse to heeding 10/25 am gara 7 Minute 4

ADVANTAGES

- 1. Carries out President's pledge to eliminate offensive threat to U.S. and Hemisphere from Cuba and avoids any erosion of U.S. momentum and position. The pledge carried out shows that U.S. has will to fight and to protect vital interests (of great importance vis-a-vis Berlin).
- Since directed at offensive weapons, keeps issue focused on Soviet nuclear presence in Cube in defiance of OAS and majority of Security Council.
- 3. Sharp, possible one time action, may carry smallerrisks of further escalation them a series of confrontations over a period of time. Soviet decision to risk major war unlikely to be decisively affected by this action in an area non-vital to the Soviets.
- 4. Prompt action will avoid danger of a growth of handsoff Cubs movement throughout Latin America which might make it increasingly difficult to strike at offensive weapons. Present willingness of Latin Americans to support strong action probably camnot be maintained indefinitely.
- 5. Signals clearly that U.S. not prepared to bargain bases in Cube for positions in Berlin, NATO and elegahere.
- 6. It could demonstrate to Cubens, Castre and others, the weakness of Soviet position in Cuba. In the absence of a strong Soviet reaction in defense of Cube, we would start the process of disenchantment and disaffection requisits to underwining Castronand Cuben reliance on the Soviet Union. He would also weaken any tendencies to rely on Soviets elsewhere in world.

TOP SECRET - SENSITIVE

- 1. This action may force Khrushchev to react strongly and could result in some type of war. However, it is unlikely that the risks of major war are greater than through escalation of blockade.
- 2. There is remote possibility that some local Soviet commander in Cuba may order firing of a missile.
- 3. Adverse effect on U.S. image of initiation of use of force against a smell country. This can be minimized by making attack selective and focused on Soviet offensive weapons. At same time there would be positive increments to our image from demonstration of clear willingness to take on the Soviets in protection of our vital interests.
- 4. Unless carefully handled could damage long-range $U\cdot S\cdot \text{-Cuban}$ relations.
- 5. May not totally eliminate offensive weapons thus calling for follow up attacks and/or invasion, unless full and unlimited international inspection is agreed to.

PREREQUISITES FOR DECISION

- 1. Veto of U.S. resolution in Security Council.
- 2. Evidence that Soviets have continued build-up of existing offensive capability in Cube in defiance of Presidential warning and OAS resolution.

- 2. Delivery of copy of White House statement to Cuban representative at UM.

 - 4. Inform OAS (Chairman) shortly in advance of strike.
- 5. Arrange for Ambassadors to notify Latin American heads of state at zero hour.
 - 6. Inform HATO Allies and others at appropriate time.
- 7. Letter to K delivered at zero hour, describing action and indicating regret that continuation of work at offensive sites had forced action, limited nature of operation, our effort to limit personnel losses, and calling for immediate consultations to reduce world-wide tensions.
